

RESURS BANK, ANNUAL REPORT 2017, ALTERNATIVE PERFORMANCE MEASURES

Certain performance measures in this report used by management and analysts to assess the Group's performance are not prepared in accordance with International Financial Reporting Standards (IFRS). Management believes that these performance measures make it easier for investors to analyse the Group's performance. The reasons for the use of different performance measures, definitions and reconciliation of performance measures against information in the financial statements are provided below. Other companies can define or calculate these measures in different ways. The Group's definitions remain unchanged compared with prior periods.

Performance measures for the Group excluding nonrecurring costs related to the penalty from the Swedish Financial Supervisory Authority

In 2015, we submitted a report to the Swedish Financial Supervisory Authority regarding inaccurate historical reporting.

During the second half of 2016, a penalty fee of SEK 35 million was imposed on the bank. In order to facilitate understanding of earnings generated by the Group excluding these nonrecurring costs.

Increase in lending to the public excluding exchange-rate effects

We follow increases in local currency to see the actual increase in lending to the public.

Average equity excluding intangible assets

We also evaluate our operations in relation to average equity excluding intangible assets, which comprises adjusted equity that is reduced by goodwill and other intangible assets. This measure is used to evaluate our use of equity.

Reconciliation of alternative performance measures

SEK thousand	Jan-Dec 2017	Jan-Dec 2016
